A WARNING: Do not attempt to disassemble the airgun in front of a minor—you could cause physical or mental injury. Do not attempt to disassemble it in a crime. Police and others may think it is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

Congratulations and you have purchased the CROSMAN® Model 760 or 66 177 caliber (4.5 mm) pellet BB air gun. Please read this owner's manual completely. And remember, this airgun is not a toy. Treat it with the same respect you would a firearm. Always carefully follow the safety instructions found in this owner's manual and keep this manual in a safe place for future use. If you have any questions regarding your new airgun, please contact Crosman at 1-800-724-7460, 607-657-0161 or www.crosman.com.

Loading and Unloading BBs

A. Loading BBs

• Pull the bolt all the way back (Fig. 1).
• Push the safety from the left side all the way in (Fig. 1). The rear sight may be adjusted to shoot higher or lower (elevation). Move the rear sight elevator back to make the BB or pellet hit higher on the target. Move the rear sight elevator forward to make the BB or pellet hit lower on the target. When moving the elevation, slightly lift the rear sight with one hand, and move the elevation with the other hand and re-trim the dot on the reticle (Fig. 10). The rear sight may also be adjusted to shoot right or left (windage). Move the windage adjustment screws by turning them counterclockwise. The rear sight elevator is the knob on the right side of the rear sight. The windage adjustment screws are located on the left side of the rear sight. Move the windage adjustment screws by turning them clockwise.

WARNING: Do not brandish or display this airgun in public – it may confuse people and may be a crime.
